

TALX Achieves ISO 27001 Certification

-Company Certified by Ernst & Young's CertifyPoint as Part of Continuing Commitment to Highest Standards-

ST. LOUIS (August 30, 2011) – [TALX](#), provider of Equifax Workforce Solutions and a leader in human resource, payroll and tax-related services, today announced it has achieved ISO 27001 certification. ISO 27001 provides a common model for implementing and operating an Information Security Management System that establishes a comprehensive baseline of information security controls.

“ISO 27001 certification is yet another means of benchmarking and validating TALX’s commitment to the latest security and risk management programs,” commented Dann Adams, President of TALX. “A number of our clients recognize ISO 27001 certification as an integral part of their own audit processes and we’re pleased to meet this requirement for them.”

ISO 27001 is undertaken by the most mature companies that can demonstrate the thoroughness of their information security programs and processes. In the U.S., more than 15% of those organizations certified to be compliant with ISO 27001 standards are financial services firms.

TALX has been certified by Ernst & Young’s CertifyPoint, an independent certification organization that determined the company met ISO 27001 requirements. In addition to the initial certification, CertifyPoint will conduct annual assessments in 2012 and 2013; in 2014, TALX will undergo another full certification assessment.
